

1. Alfie ran 5 laps around the playground and then ran 3 more laps; how many laps did he run in total?
2. Mia had 8 beanbags and used 2 of them in a game; how many beanbags does she have left?
3. A skipping rope costs £3; how much do 2 skipping ropes cost?
4. There are 2 cones in each lane and 4 lanes in total; how many cones are there altogether?
5. Isla jumped 6 times and then jumped 4 more times; how many jumps did she do?
6. Each football pitch has 2 goals; how many goals are there on 3 football pitches?

(P.E. Focus) Maths Word Problems – KS1 – Year 1

MARK SCHEME

1. $5 + 3 = 8$ laps
2. $8 - 2 = 6$ beanbags
3. $£3 \times 2 = £6$
4. $2 \times 4 = 8$ cones
5. $6 + 4 = 10$ jumps
6. $2 \times 3 = 6$ goals
